

## Uniform Care

- DO NOT DRY CLEAN - These uniforms are machine washable.
- Use non-chlorine household laundry detergent. You can also use non-chlorine stain removers. Do not use liquid fabric softener!
- Wash with cold water on gentle/permanent press/delicate cycle, and dry on cool/permanent press.
- Make sure to put the gauntlets together when washing so that the velcro does not snag on other parts of the uniform.
- Uniforms should always be allowed to dry out and stored on hangers.
- You may press the pants, especially the hem, but do not press over the snaps on the inside.
